Professional Experience

Treasury Board Secretariat of Canada – Central Agencies I&IT Cluster May – September 2016 Software Engineering Intern – Premier's Greetings team

The Premier's Greetings team was tasked with creating a greetings request system for Ontarians.

- > Developed an automated tool to retrieve certificate templates from a SQL database in C#.
- ➤ Implemented customizable interface management tables to handle and organize ~80,000 requests per year in AngularJS.
- Developed a Postal Code Lookup service using Google Maps API and AngularJS.
- Researched and wrote a guide on how to migrate Microsoft SharePoint lists between SharePoint sites. Published on my blog: http://bit.ly/2bKYonD

Education

University of Toronto

➤ BSc. Computer Science – Computer Science Specialist Program

2015 - 2019

Personal Projects

BabyBuddy

HTML, CSS, JavaScript (AngularJS)

- A simplified informational resource to guide women through the months of pregnancy.
- Includes beneficial convenient tips for pregnant women to assist them during pregnancy.
- Published at http://ivanshen.me/babybuddy

SpotiKeys Java, AppleScript

- > Built a Spotify extension to allow users to bind their own custom global hotkeys to control Spotify from anywhere on their computer.
- Available at https://github.com/ivanshen/SpotiKeys

SwapWithMe

HTML, CSS, JavaScript, MongoDB (Meteor)

- > A textbook exchange platform to simplify the process of searching for courseware.
- > Allows for users to filter specific search results such as buying or selling intentions, search tags, and availability.
- Available at https://github.com/paulxuca/Item-Swap

Help Me Up - Brain Hacktivity

Java, Python, MongoDB

- A patient monitoring Android app for patients with dementia using aneural network that alerts caregivers of a patient's fall and circumstances.
- > Designed and implemented emergency alerting, patient visibility, patient coordinate location, and alarm features within the application.
- Read more at http://devpost.com/software/helpmeup

Se7en

HTML, CSS, JavaScript (AngularJS)

- > A fun and addicting web game to test the speed your arithmetic!
- Published at http://ivanshen.me/Se7en/
